New and Revised Workplace Violence Prevention Requirements for the ALC Program

The Joint Commission has approved the following revisions for prepublication. While revised requirements are published in the semiannual updates to the print manuals (as well as in the online *E-dition*®), accredited organizations and paid subscribers can also view them in the monthly periodical *The Joint Commission Perspectives*®. To begin your subscription, call 800-746-6578 or visit <http://www.jcrinc.com>.

Please note: Where applicable, this report shows current standards and EPs first, with deleted language struck-through. Then, the revised requirement follows in bold text, with new language underlined.

APPLICABLE TO THE ASSISTED LIVING COMMUNITIES ACCREDITATION PROGRAM

Effective July 1, 2025

Environment of Care (EC) Chapter

EC.02.01.01

The organization manages safety and security risks.

Element(s) of Performance for EC.02.01.01

New EP 17 The organization conducts an annual worksite analysis related to its workplace violence prevention program. The organization takes actions to mitigate or resolve the workplace violence safety and security risks based upon findings from the analysis.

Note: A worksite analysis includes a proactive analysis of the worksite, an investigation of the organization's workplace violence incidents, and an analysis of how the program's policies and procedures, training, education, and environmental design reflect best practices and conform to applicable laws and regulations.

EC.04.01.01

The organization collects information to monitor conditions in the environment.

Element(s) of Performance for EC.04.01.01

EP 1 The organization establishes a process(es) for continually monitoring, internally reporting, and investigating the following:

- Environmental deficiencies, hazards, and unsafe practices
- Injuries to residents or others within the organization's facilities
- Occupational illnesses and staff injuries
- Incidents of damage to its property or the property of others in locations it controls
- Security incidents involving residents, staff, or others in locations it controls
- Hazardous materials and waste spills and exposures
- Fire safety management problems, deficiencies, and failures
- Medical equipment management problems, failures, and use errors
- Utility systems management problems, failures, or use errors

Note 1: All the incidents and issues listed above may be reported to staff in quality assessment, improvement, or other functions. A summary of such incidents may also be shared with the person designated to coordinate safety management activities.

Note 2: Review of incident reports often requires that legal processes be followed to preserve confidentiality. Opportunities to improve care, treatment, and services, or to prevent similar incidents, are not lost as a result of following the legal process.
